## ZINGIBER

SOUR WITH ORANGE, GINGER & STAR ANISE 5.0%

We were very excited to work with the highly respected Young Master Brewery from Hong Kong. We combined our knowledge of creating distinct and remarkable sours, coming up with a fantastic trio of additions we feel work really well in harmony. We utilised orange zest for the sour enhancement and a moderate touch of ginger and star anise for the Asian influence. Zingiber is light, zingy and beautifully drinkable with all the character from each carefully selected ingredient creating a true experiential journey.

## RIFFLE

WEST COAST IPA 7.0%

A Riffle is a reach of stream where shallow, fast-moving water is broken by the presence of rocks and boulders. Riffles are found both near us here in Derbyshire and in Suffolk, near our friends at Burnt Mill Brewery. The beer itself is our collective take on a West Coast IPA, with an exceptionally pale malt base and a careful combination of both classic and modern us hop varieties, giving a crisp, clean beer full of tropical and piney aromatics.
